

BLUE LIGHT STUDIO

HIRING SESSION OPTIONS

Blue Light Studio offers a number of packages to suit most requirements:

PACKAGE 1 - VOCAL SESSION (£125)

This package caters for the vocal performer, whether professional or otherwise, who wishes to produce a recording of a vocal performance over an existing backing track. As many vocal tracks as required can be catered for on one or numerous different songs within the session time of 3 hours. Vocalists must provide their own backing tracks in a standard audio file format. Cassette tape and MiniDisc tracks cannot be used. The quality of the original backing track will directly affect the overall session result and it is the responsibility of the artist to ensure that the backing track provided is of professional standard. Full use of vocal enhancement and production tools along with a professional engineer are provided with this package. Available evenings, weekends and school holidays.

PACKAGE 2 - DEMO SESSION (£110)

This package provides you with a cost-effective way to produce a recording of your work for copyright purposes, production of demo CDs or other reasons. The package is available for solo artists and groups of up to 5 members. The studio and recording will be configured in a basic, pre-set way and recordings will be "largely-live", in that no overdubs will be catered for apart from one or two straightforward vocal or instrumental solo additions. If you require greater flexibility please consult us before booking so we can discuss the right session for your needs. Sessions are of four-hour duration, during which as many songs as you require can be recorded and a final mix will be provided on CD at the end of the session. Session time includes all set up and dismantling of band and studio equipment. A professional engineer is provided with this package. Available evenings weekends and school holidays.

DAY RATE 1 - STUDIO DAY HIRE (£250)

This rate includes full use of the studio and one of our appointed engineers (according to our stated terms and conditions) for a nominal 8 hour day. Commencement times may be agreed in advance, however, late arrival may result in the full session period not being available. Allowance for band and studio set-up and for mixing (if required) must be made when booking studio time. Available weekends and school holidays.

DAY RATE 2 - STUDIO DAY HIRE WITH ADDITIONAL EAST HALL (PRICE SUBJECT TO REQUIREMENTS)

This rate includes full use of the studio, adjacent East Hall and one of our appointed engineers (according to our stated terms and conditions) for a nominal 8 hour day. Commencement times may be agreed in advance, however, late arrival may result in the full session period not being available. Allowance for band and studio set-up and for mixing (if required) must be made when booking studio time. Booking of the East Hall **must** be arranged in advance and is subject to availability. Further details are available on request.

PRIVATE RATE - PRIVATE STUDIO HIRE

This rate is only applicable to approved and qualified sound engineers who wish to hire the studio (with or without the live room) for any tracking, vocal or instrument overdubs or post-production work. This is available strictly by prior approval and arrangement and is in accordance with our stated terms and conditions. A house engineer is not included in this rate. Rates are as follows:

Up to 4 hours: £90

Each additional hour: £20

Please complete the relevant section of the attached Booking Form and return the signed form with your deposit, together with your signed agreement of Conditions of Hire form.
